Careers in Education

School Agricultural Lessons

International exchange

## Curriculum Year 2011

### Large variety of elective courses

We have 20 or so students in each class, and we teach many lessons according to the students' academic achievements. In order to support them, so that they realize their future goals, we offer classes (even if only a few students apply) if those classes are needed for their future lives.

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30

Develop students who can use green tourism,  
the process that connects urban cities and  
farming communities.

Primary subjects: Flower Growing, Vegetable Growing, Gardening, Fruit Tree Growing,  
Life and Domestic Animal, Fruit and Food Culture, Insects Use,  
Green Life, Interior Green, Vegetable Garden, Fruit Garden

# Cooperation with Junior High Schools

## NS (Nose Special Lessons)

- ★ Through cooperation with two municipal junior high schools, our school and junior high teachers work together to cultivate the Nose area students' academic ability.

## Consistent twelve-year Learning

- ★ We make the curriculums (instruction and evaluation) for every subject, career education, and educational guidance, so that we can try to improve the Nose area students' learning.

## Local Community Exchange

## Activities in the Local Community

- ★ We utilize our school's farm for environmental and agricultural study for elementary and junior high school students and Parents Teachers Association.
- ★ On our Sports Day, we have games with elementary school students. Also, our high school students participate in elementary and junior high school sports day activities.
- ★ At our School's Culture Festival, student council members from elementary, junior high, and high school participate in events they prepared together.
- ★ In our Home Economics lesson, we invite infants and their parents from the Nose area.
- ★ We all participate in various events and volunteer activities at welfare facilities in the Nose area.

## International Exchange

*We enjoy knowing more about the world!*

In Summer vacation, we have a two-week training trip in Australia. For two weeks students study at Massey High School in New South Wales and stay in students' homes of that school.

In 2nd grade, we have the school trip to Malaysia. Before the trip we exchange e-mails with the students of Assunta High School many times. Through this exchange, students learn about the cultures of another country.

Our school was certified as the 7th UNESCO School in Osaka Prefecture. There are 8,500 UNESCO Schools in 180 countries all over the world and they promote education for sustainable development.

Every year, we welcome foreign students to our school from all over the world. We have welcomed students from America, Thailand, Korea, China, Malaysia, New Zealand, Sweden, Australia, and Turkey.

## Career Guidance Program

## 3-year Career Education

### Thorough Guidance

### Various Lectures

- ★ Advise students on how to best determine their future course
- ★ Give Special lectures by various instructors  
from outside school
- ★ Host a Learning Camp for 1st grade students  
in summer vacation
- ★ Host various lectures after school and  
during school holidays
