

At first, thank you for your good debate in English.

Did you enjoy today's debate? Sure, I did.

Especially, the last debate was very excited and excellent.

And the pronunciation of all members was good.

If I had taken such a good lesson in my school days,

I could improve my English skill more.

I think you are very happy to take such a good lesson.

So, girls and boys, study harder and harder.

And enjoy your English lessons. That's all. Thank you.
